This document contains sensitive & confidential information, and should not be disclosed, transmitted, duplicated, used in whole or part other than for its intended purpose and intended recipient.

1. Test **Scenario**

Due to server crash not able to reach the site. Hence management decided to restore the server.

2. **Date and Time of Test**

Date and Time of Test Start Date/Time	Finish Date / Time
31-January 2024 at 15:40 PM	31-January-2024 at 16:10 PM

3.**Steps Involved**

1. Restoration of application from the image Backup
2. Verified the data of the restored databases and applications
3. Application started successfully on azure instance

4.**Restoration of Original site**

The situation is back to normal in 30 mins, by restoring the server from the image level backup.

Below are the Activities we carried out to ensure that we start our operation within 20 min Window.

Sr. No	Description	Team Involved	Estimated Time	Process	Actual Time	Remark / Result
1	Restoration of the TFS Application App Server using the latest AMI backup images	TFS /IT Infra	1Hr	The latest backup of Application, Database, servers were present in AWS AMI backup for Restoration. Click and select the new instance	15min	We had successfully restored backup image on new instance.
2	Restoration of activities back to original site	TFS /IT Infra	30min	Data is verified for the recent	15min	No data inconsistency was observed. Operations

				changes and operations		started with no issues.

5: **Results**

Total time taken for initiating operations took 30minutes which in within the RTO

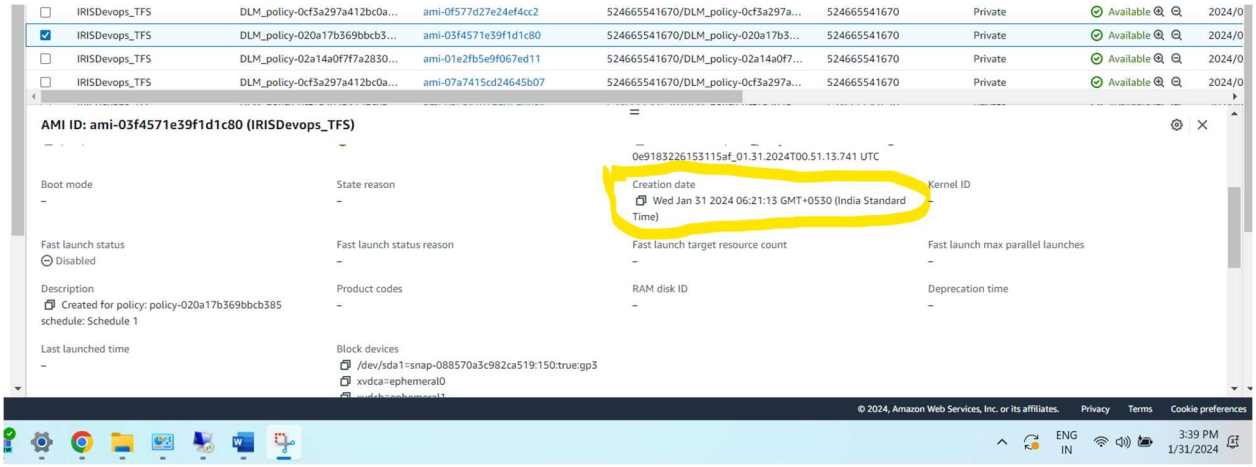
Verified By:

Mahesh Tilave

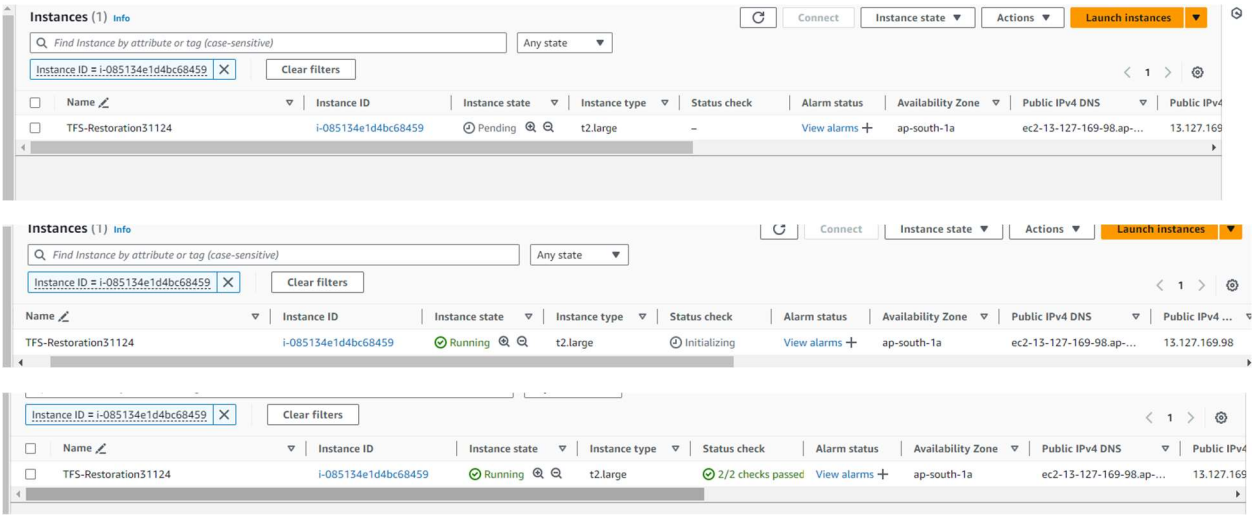
Head –IT & operations

Activities evidence snap.

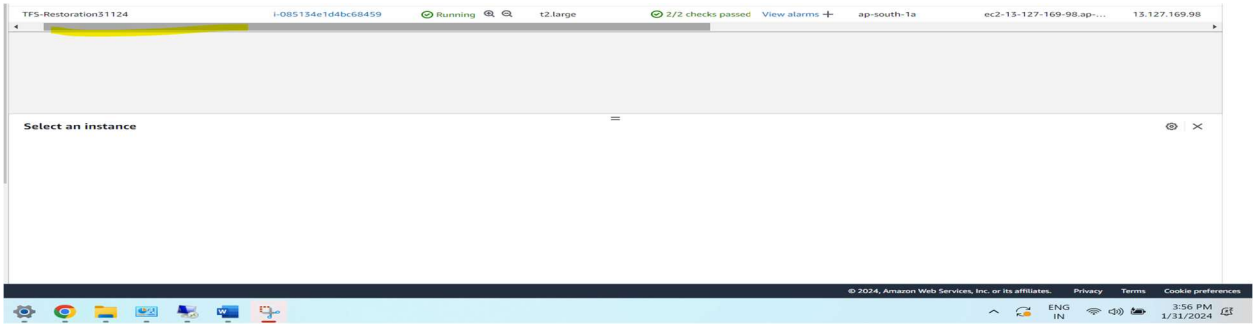
1: We Launch the instance from AMI backup for TFS server from Latest one.



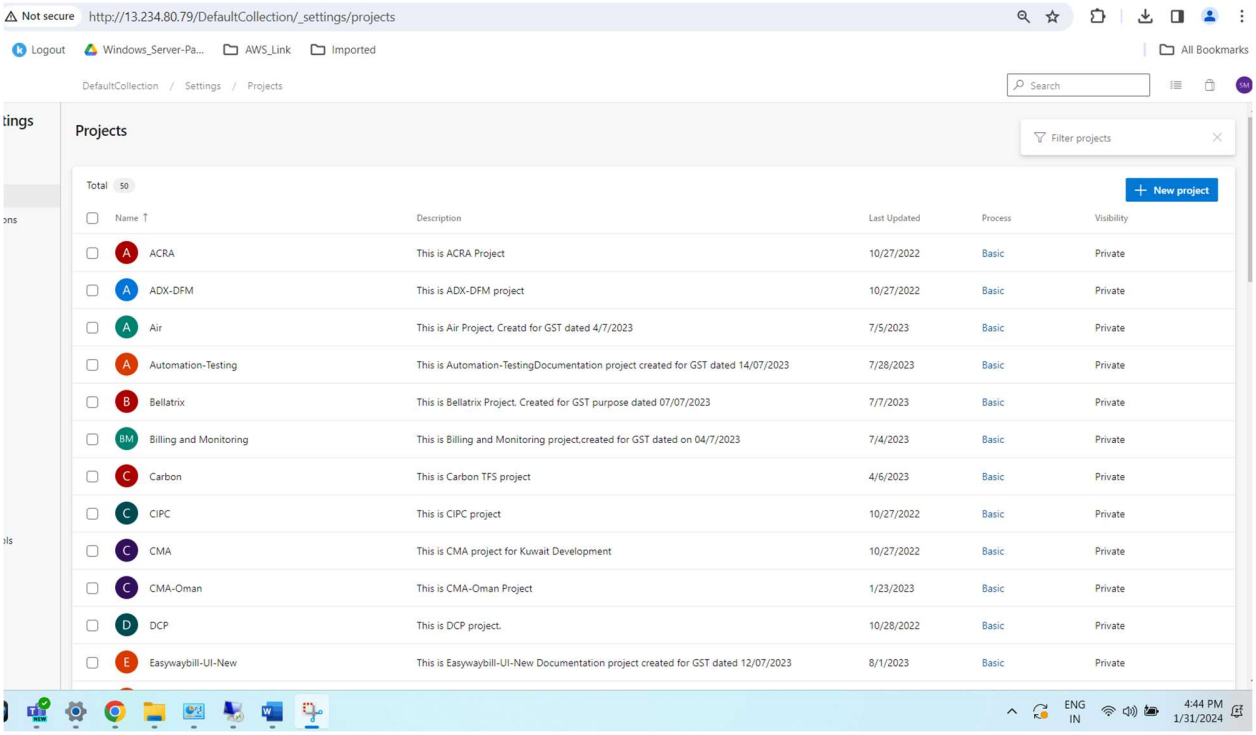
2: showing AMI instance restoration process and status



Now instance is ready for taking connection.



4: Now We login at Live server ip and check the live project names.



5: Now we login using restored the server ip

6: We have cross verifies project data, permission and access level everything as it places,

We successfully restored the TFS server.
